A PARTY of raftsmen had a very narrow escape from drowning on June 17th, at the Big Eddy on the Saskatchewan three miles below Buck Creek and about 100 miles up the river. They were working for Wright & Cameron who are bringing down logs for Fraser & Co. Three men named Hans Anderson, Otto Daeger and Charles Vollrath were coming down the river on a raft made of three logs lashed together. In passing the eddy the current sucked the raft into the centre of the whirlpool, and broke the lashings so that the logs went apart and let the men into the water. They managed to hold on to logs however and finally went ashore on the bar below. Two other men named Morris Smeltzer and Robert Johnson, brought a log canoe and took in the three men on the bar. They then tried to cross the river above the eddy but were not able to do so. After paddling for half an hour they were at last drawn back into the whirlpool and the canoe sucked under leaving the men in the water. Vollrath, Johnson and Anderson managed to reach shore after nearly half an hour's strong swimming. The other two men got on the canoe when it came up and got ashore twenty minutes later. The other men on the bank did their best to give assistance but could not. The next day in running a large raft through the eddy two logs were broken away from the raft and sucked under. This eddy forms a regular whirlpool at intervals of about half an hour and when the whirlpool is forming is very dangerous.

GENERAL NEWS.

The Grenfell Sun, Vol. 1, No. 1, is to hand. It is published by a company. It is independent in politics.

China and Japan are likely to go to war about Corea which lies between the two great empires. The eastern—or western—heathens are beginning to act just like christians.

The Moose Jaw Chronicle, No. 1. Volume 1 is to hand. J. F. Watkins editor. Moose Jaw is now blessed with two weekly papers. The Times formerly the only paper has recently passed through a change of ownership, a result of inadequate support.

The Moose Jaw Times has passed into the hands of Walter Scott of the Regina Standard. Mr. Scott is a practical printer and has good editorial abilities as well. If the Times is not made a success the fault will be in the field of operation not in the paper.

Herald, Battleford: The Indian department has just bought from the Wild estate 69 heifers, 15 cows, and a thoroughbred bull for the Indians at Bear Hills, Alta. They were selected by Mr. Clark, agent for the Indians, for whom the purchase was made, and he calls them good cattle, such as will rank first-class in Edmonton. They crossed on the ferry here on Tuesday and took the trail for the north on Wednesday. They are bought for the Indians with money received for beef cattle sold to the department.

A terrible plague has appeared in China, which up to June 7th had carried off 12,000 people. It seems to have broken out in Hong Kong and spread to Canton and surrounding districts. A vessel reaching Nagasaki, Japan, from Hong Kong, China, reported losing a Chinaman on the voyage from the disease. It is supposed to be the same disease which has on several occasions devastated Europe under the name of the plague, or the black death. Vessels arriving at Vancouver from China are fumigated.

## DROWNING ACCIDENT.

On Tuesday evening about five o'clock John Brunelle, the youngest son of Joseph Brunelle, of the Columbia house, was drowned in the Saskatchewan in front of Humberstone's coal mine. The deceased was aged 8 years, 9 months and 28 days. He had gone down to the river for a bath with several other boys about his own age to the winter grade from the coal pit. The river is deep at this point close to shore, which the boys apparently did not know. Brunelle and Maurice Pettipiece were the first to undress and both went into the water about the same time. They were at once out of their depth and in danger of drowning. Another boy named Rivet went into the water as far as he dared and managed to reach Pettipiece and bring him out safely. The other boys were unable or too startled to reach Brunelle and by the time Rivet had got Pettipiece out Brunelle had gone down. Charles Pepin, who was on the opposite side of the river at Fraser & McKernan's mill saw the accident and came across in a skiff, but was too late. As there is an eddy at this point the body did not float down stream far and after some time, when he had secured assistance, Pepin succeeded in diving and securing the body. Every effort was made to restore life but without avail as the body had been in the water about half an hour. Mr. Brunelle has the sympathy of the entire community in this great affliction.
